

LISTING OF THE CLAIMS

1. (Previously Presented) A system for raising funds for a first organization, the system comprising:

a memory for storing executable instructions; and

a processor for performing the steps comprising:

identifying one or more individuals associated with the first organization;

requesting enrollment of the one or more identified individuals in a program permitting the first organization to take out an insurance policy on each life of the one or more identified individuals naming the first organization as beneficiary and granting the first organization an irrevocable right to utilize the insurance policy on each life of the one or more identified individuals to serve the best interests of the first organization;

receiving information from one or more of the identified individuals accepting the enrollment;

selecting one or more of the one or more enrolled individuals based upon the received information to create a structured financial asset comprising one or more insurance policies for each of the selected individuals, wherein the one or more insurance policies are selectively grouped based upon actuarial matrices or formulas into the structured financial asset;

facilitating payment of premiums for the structured financial asset;

holding the structured financial asset of the first organization in a passive vehicle;

providing, by a second organization, capital to the first organization as evidenced by a promissory note secured by the structured financial asset;

transferring a right or a benefit that the passive vehicle receives with respect to the structured financial asset as repayment of the promissory note to the second organization; and

wherein the structured financial asset generates a variable net cash flow, after the payment of premiums, based upon and timed by mortality payments and not based upon and timed by an expected mortality rate.

2. (Previously Presented) The system of claim 1, wherein the passive vehicle holds the structured financial asset on behalf of the first organization and the second organization.

3. (Previously Presented) The system of claim 1, wherein the right or the benefit includes canceling the structured financial asset.

4. (Previously Presented) The system of claim 1, wherein the right or the benefit includes distributing all assets contained within the passive vehicle.

5. (Previously Presented) The system of claim 1, wherein the right or the benefit includes transferring the right or the benefit from the structured financial asset at any time.

6. (Previously Presented) The system of claim 1, wherein the right or the benefit includes a call option to acquire the structured financial asset from the passive vehicle.

7. (Previously Presented) The system of claim 1, wherein the first organization is a non-profit organization.

8. (Previously Presented) The system of claim 1, wherein the second organization includes a lender.

9. (Canceled)

10. (Canceled)

11. (Canceled)

12. (Previously Presented) The system of claim 1, wherein the first organization is solely responsible for the premiums of the one or more insurance policies.

13. (Previously Presented) The system of claim 1, wherein the one or more insurance policies is structured as a single premium modified endowment contract.

14. (Previously Presented) The system of claim 1, wherein the structured financial asset includes variable universal life insurance.

15. (Previously Presented) The system of claim 1, wherein the passive vehicle includes a trust.

16. (Previously Presented) The system of claim 1, wherein the passive vehicle includes a Qualifying Special Purpose Entity.

17. (Previously Presented) The system of claim 1, wherein the second organization, upon transfer of the structured financial asset by the first organization to the passive vehicle, has an investment classified as an "available for sale investment" under FASB 140 at the full purchase price of the second organization.

18. (Previously Presented) A system for raising funds for a first organization, the system comprising:

a memory for storing executable instructions; and

a processor for performing the steps comprising:

identifying individuals associated with the first organization;

requesting enrollment of the individuals in a program permitting the first organization to insure the individuals;

taking out one or more policies insuring the lives of the individuals;

naming the first organization as the beneficiary of the one or more policies;

selectively grouping the one or more policies based upon actuarial matrices or formulas;

transferring funds as evidenced by a promissory note secured by each grouping of the one or more policies to the first organization;

repaying the promissory note by transferring one or more benefits and/or rights from the one or more policies; and

wherein the selective grouping of the one or more policies generates a variable net cash flow, after payment of premiums, based upon and timed by mortality payments and not based upon and timed by an expected mortality rate.

19. (Previously Presented) A system for raising funds for a first organization, the system comprising:

a memory for storing executable instructions; and

a processor for performing the steps comprising:

identifying individuals associated with the first organization;

requesting enrollment of the individuals in a program permitting the first organization to insure the individuals;

taking out life insurance on the individuals and naming the first organization as beneficiary of the life insurance;

selectively grouping the one or more policies based upon actuarial matrices or formulas;

raising funds for the first organization by at least borrowing funds from a second organization as evidenced by a promissory note secured by the life insurance;

transferring one or more rights and/or benefits from the life insurance on the insurable interests to the second organization; and

wherein the selective grouping of the one or more policies generates a variable net cash flow, after payment of premiums, based upon and timed by mortality payments and not based upon and timed by an expected mortality rate.

20. (Previously Presented) A system for raising funds for a first organization, the system comprising:

a memory for storing executable instructions; and

a processor for performing the steps comprising:

identifying one or more individuals associated with the first organization;

requesting enrollment of the one or more identified individuals in a program permitting the first organization to take out an insurance policy on each life of the one or more identified individuals naming the first organization as beneficiary and granting the first organization an irrevocable right to utilize the insurance policy on each life of the one or more identified individuals to serve the best interests of the first organization;

receiving information from one or more of the identified individuals accepting the enrollment;

selecting one or more of the one or more enrolled individuals based upon the received information to create a structured financial asset comprising one or more insurance policies for each of the selected individuals, wherein the one or more insurance policies are selectively grouped based upon actuarial matrices or formulas into the structured financial asset;

facilitating payment of premiums for the structured financial asset;

providing, by a second organization, capital to the first organization as evidenced by a promissory note secured by the structured financial asset;

transferring the structured financial asset of the first organization into a passive vehicle for the benefit of the first organization and the second organization;

transferring a right or a benefit that the passive vehicle receives with respect to the structured financial asset as repayment of the promissory note to the second organization; and

wherein the structured financial asset generates a variable net cash flow, after the payment of premiums, based upon and timed by mortality payments and not based upon and timed by an expected mortality rate.

21. (Previously Presented) The system of claim 20, further comprising providing a call option to the second organization to acquire the structured financial asset from the passive vehicle.

22. (Previously Presented) The system of claim 20, wherein the first organization is solely responsible for the premiums of the structured financial asset.

23. (Previously Presented) The system of claim 20, wherein the passive vehicle is a Qualifying Special Purpose Entity.

24. (Previously Presented) The system of claim 20, wherein the second organization, upon transfer of the structured financial asset by the first organization to the passive vehicle, has an investment classified as an "available for sale investment" under FASB 140.
